

October 2007

Dear ARIN,

On behalf of the all the folks who are registered with the Silent No More Awareness Campaign, we thank you for the great work you are doing. ARIN is providing such an important service to those who have been hurt by abortion. Both women and men have expressed appreciation for the help they have found through ARIN's outstanding website.

Connecting with the healing programs that happen around the world is a critical component for those who search for help after being hurt by abortion. ARIN's website makes it so easy to find help quickly. Also it's so good to know the information listed is correct and accurate, providing actual connection with the first call.

We applaud your work and encourage you to continue to build such a helpful association that blesses not only those who need the help, but those who provide it as they are able to connect with each other too. WOW you guys are great!
