

who...

Abortion Recovery Awareness Month™ is a community service event founded by Abortion Recovery InterNational (ARIN) in 2005. Anyone can participate by following the steps listed on the website below.

A word from a few supporters:

"Ending a pregnancy through abortion interrupts the natural birth process and creates significant trauma and stress for those involved in the pregnancy. An abortion is a tragic ending, not only because of the loss of a life, but also because of the physical and psychological trauma caused by the procedure itself." said Governor Rick Perry of Texas, who Proclaimed April as Abortion Recovery Awareness Month in Texas.

Louisiana Governor Bobby Jindal, who also Proclaimed April as Abortion Recovery Awareness Month stated, "Abortion recovery programs offer invaluable services that help abortion's living victims heal through individual counseling, support groups, encouragement and education."

"Abortion Recovery Awareness Month encourages and promotes healing opportunities and raises awareness of the aftermath of abortion experienced by individuals and families." said proclaiming Governor Tim Pawlenty of Minnesota. "Abortion recovery programs help individuals heal by providing counseling, support groups, encouragement, and education."

what...

Abortion Recovery Awareness Month™ (ARAM) is a collaborative effort of caring people around the globe, encouraging and extending healing opportunities to those hurting from a reproductive loss due to abortion. The month long community event inspires others to enlighten society by reaching out to individuals and families in their communities.

why...

Because for some, abortion can effect everything!

It impacts our marriages and our most intimate bonds with each other. It sneaks about in our families and with friends. It whispers in our church and murmurs in the body of Christ. It infects our society and infiltrates our schools. It attaches itself to the media and takes over our politics. It's not just a simple word that explains a medical procedure. It effects our community in ways that no other topic does.

But it goes deeper than that. We as a society do not know how to respond. Individuals are not talking about the subject matter. Not because they do not want to, but because they do not know what to say or how to say it.

Healing from a decision that leaves huge scars on our families and friends, our church and our communities is possible. **We'll show you how!**

when...

April each year.

how...

ARAM is secular-friendly. It is free of judgment, condemnation or negative connotations. The goals are to encourage and extend healing opportunities and to enlighten society.

To be involved:

- 1) Read through the brochure - commit to the event.
- 2) Sign the online Principles of Participation form each year.
- 3) Follow the rest of the steps found here:

abortionrecoveryawarenessmonth.org

where...

Compassion begins at home. A couple led through recovery can reconcile their marriage. A mother who finally tells her daughter about the pain of her own abortion, may save the lives of her grandchildren. Suicide, drugs or alcohol need not be the answer to the emotional or psychological impact of abortion. A forgiving God, loving family and friends, church and community support ... Those should be the answer!
