

GENERATION  
AT RISK

November 1, 2007

To Whom It May Concern:

It is my pleasure to write a letter of recommendation for Stacy Massey and her Ministry for "Abortion Recovery International Network" (ARIN).

I have worked both with and for her for the last 2 ½ years at Awareness, Incorporated. We were a Non-Profit, 5013C, organization that brought the message of Health and Character with Abstinence until Marriage standard to the Middle and High School Students. I believe her to be one of the most hard-working and intelligent women that I have had the privilege to work with.....

I first began working with her by training her to be a speaker for the topic of Teen Pregnancy for our "Road Ahead" program that we brought to the public and private schools in Southern California. She excelled as a great communicator and had great favor with the students.

When she was called upon to take over the directorship of our organization in a very difficult situation, she has shown great leadership abilities. I observed her as she worked diligently to solve the problems that were confronting her as the new Director. She worked with everyone involved in a professional manner and was instrumental in bringing us back into favor with our Grantor.

Stacy's heart is in abortion recovery. I know that she has spent many hours on phone calls with post-abortive women, day or night, to help them through the painful emotions that come with having an abortion. She makes herself available to everyone that is in need. This is her passion.....

Sincerely,

Kathi Frye

Program Administrator, Speaker, Trainer  
Awareness, Incorporated
